## Map SD Card Replacement

Thank you for updating your navigation system map data. Please replace the Map SD card currently in your navigation system with the enclosed Map SD card by using the following upgrade procedure. This process will take about 6 minutes to complete.

### Warning

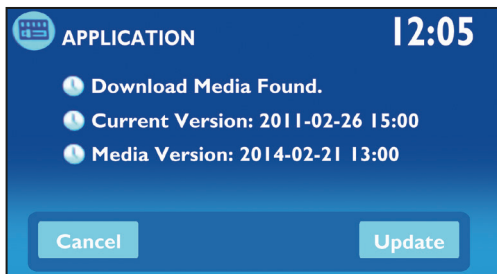

**To avoid risk of death or serious personal injury when updating the map software:** Park the vehicle in a secure, safe, well-ventilated location that is open to the air and apply the parking brake. While the update is in progress, remain with the vehicle and do not attempt to operate or drive the vehicle during that time. Do not allow children, pets, or people who may need assistance to remain in the vehicle unattended while the software is updating.

### Procedure

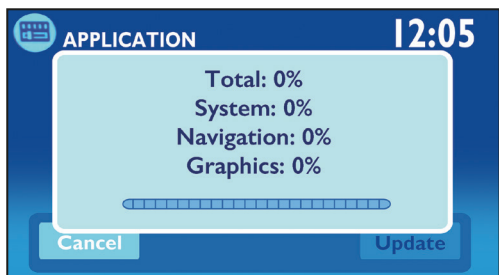

- 1 Turn off the power to the navigation system.
- 2 Push in on the SD card in the slot labeled "SD Map" to pop it out of the SD slot.

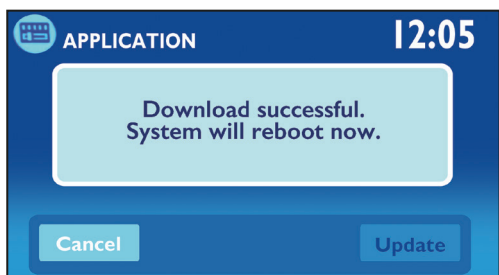

- 3 Insert the new card from your map update package. Then turn your navigation system on. After loading the Map SD card, the screen will display the following message:

- 4 Click the Update button. The navigation system screen will display:

The system will then display the loading progress as the update installs. When loading is complete, the system will display:

**The installation of the new navigation map update is successful.**

## **Nissan Navigation System Help Desk**

For customer service, please contact **1-888-628-6279**.

Please have your order number ready before contacting the help desk.
